

UX Testing + UI Iteration

	LOGIC: Click around the page and try to solve the puzzle. Explain the puzzle you are solving and talk out loud when you are stuck.	INTUITIVENESS: Was the puzzle too easy or too hard? How could the puzzle difficulty be adjusted to make it more intuitive and enjoyable?	JOY: What elements of the UX could be improved to make the puzzle more fun/satisfying? (ex: sounds, hover effects, etc.)
User 1 Name: Austin N	• Connect wires in order to turn the lights on • What else after that	• Give more time for the puzzle • Make the wires turn green when connected	• Really liked it • Add some sounds
User 2 Name: David D	• Can I take all of the wires? • Why is one slot empty? • Make a game over jumpscare	• People click on the select button multiple times • Make it clearer when things are connected • Remove button should be a one and done	• Liked the puzzles not hard but makes you think • Didn't really need a hint • Make the inside of the boxes actually look like the inside of a cardboard box
User 3 Name: Tyler S	• Missing a wire in the bottom box • Key sends back to beginning	• People click on the select button multiple times • Make it clearer when things are connected	• COLOR INDICATOR • To many solutions that dont work delete some of the boxes
User 4 Name: James A	• Had problems knowing when the wires were connected • One of the wires is missing	• Kept on relicking the wires to select • Kept forgetting about the remove button • Timer is to short	• Some solutions don't work • Fun puzzle
User 5 Name: Jordan D	• Pretty straightforward puzzle • Have a hint • Hide the boxes or move them around • Make the pizza box more noticable	• Kept on relicking the wires to select them • Got confused after connecting the wires • Make the timer visible in the puzzle	• Pretty fun puzzle • Challenging enough but still possible • Add some SFX

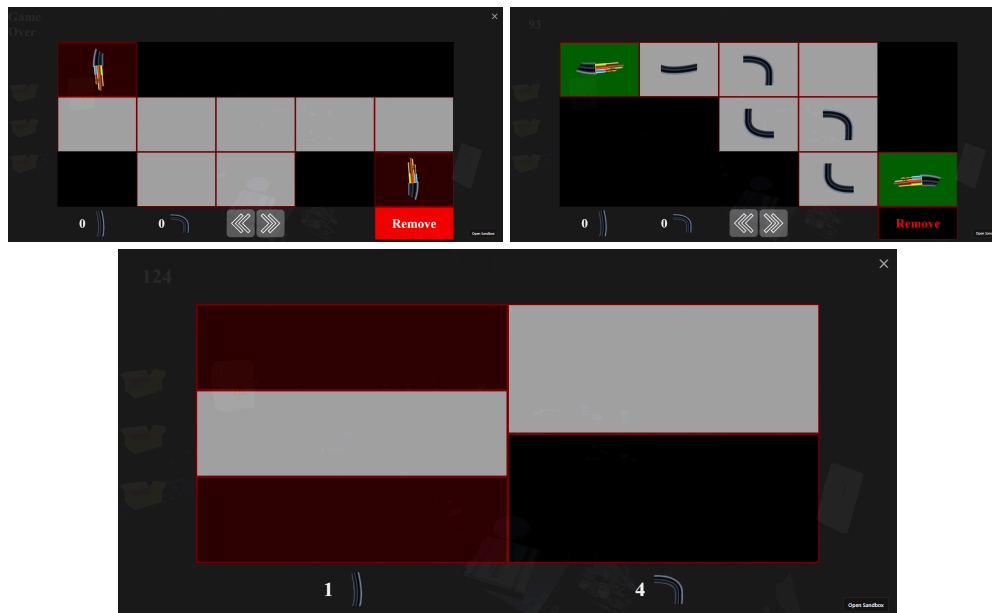

UI Before Feedback (GIF recorded with [Chrome Capture](#))

What trends did you identify in your feedback?

- Make it clearer when things are connected
- Kept on relicking the wires to select them
- Kept forgetting about the remove button
- One of the wires is missing
- Some solutions don't work
- Add some SFX
- Make the timer visible in the puzzle
- Make the pizza box more noticable
- Make the inside of the boxes actually look like the inside of a cardboard box

UI After Feedback (GIF recorded with [Chrome Capture](#))

What changes did you make to improve your puzzle UI?

- Made it clearer when things are connected
- Changed the cursor to the wire icon
- Made the remove button bright Red
- Changed the wire layout
- All solutions work
- Added some SFX
- Make the timer visible in the puzzle
